AVAILABLE AT ALTER'D MANE SALON

CLEANSE

+ Brush out your extensions before getting in the shower. (When brushing, always start from the bottom and work your way up. Hold the weft with one hand and brush through gently. To avoid matting, brush from top and underneath too.)

+ Carefully shampoo and condition between each row of hair. Don't forget to lift up and rinse each section to ensure proper rinsing.

+ Post-shower, use a conditioning detangle spray along with a light-weight oil or serum.

Tips:

- + Use sulfate-free+ paraben-free products
- + Use moisturizing Shampoos + Conditioners

AVOID

+ Sunscreens + Medicated Skin Care Products

+ Chlorine + Salt Water: if swimming, saturate hair with fresh water first and then seal with a rich, moisturizing conditioner

+ Heavy Oils, Masques, Protein Treatments

MAINTAIN + STYLE

+ Use thermal protectants when heat styling

+ Braid or place in a low bun while sleeping

+ Brush hair out in sections, starting from the ends and working up towards the scalp

+ Invest in a satin pillowcase, this can reduce the risk of breakage while sleeping!

+ Apply Oil or Serum in between washes to keep the ends of your extensions hydrated

+ Never sleep on wet hair, this can cause damage to your extensions

+ When drying your extensions, make sure the tops of the wefts are completely dry

+ Do not use hair ties that can cause damage
